TECHNICAL SKILLS

JavaScript	Angular	Gulp	Express.js	Objective-C	SQLite
TypeScript	Node.js	Grunt	Hapi.js	iOS	**Creative Suite:**
Ionic	Bootstrap	Bitbucket	npm	Python	Photoshop
Firebase	Kendo UI	GitHub	Java	SQL Server	InDesign
HTML/CSS	JIRA	APIs	Android	PostgreSQL	Illustrator

EXPERIENCE

Cloudburst, SBC
Software Developer ....*May 2018 –present*

ITM TwentyFirst
Full-Stack Software Engineer ....*July 2016–May 2018*

- **PBI Locate Self-Report App** Built a public-facing web app for customers to confirm/update their contact information, along with an api to interact with it.
  Outcome: Saved company staffing and supply costs by automating one step of customer interaction.

- **Database Scrubber** Built an internal Node app to obfuscate HIPAA-protected personally-identifying information from production data for use by developers without access to such information.
  Outcome: Provided development data that more accurately reflected production data patterns, increasing speed and accuracy of development and testing.

Abstract Puzzle, Inc.
Contract Mobile Developer ....*April 2015–May 2015*

- **TicTac Math** Upgraded user interfaces in iOS app for all device sizes and screen orientations

Martin Williams Advertising
Digital Production Artist .... *August 2006–September 2013*

EDUCATION

Prime Digital Academy .... Full Stack Software Engineering Certification
Minneapolis Community & Technical College ....Software Development Program
University of Minnesota ....Bachelor of Liberal Arts, Studio Arts major
